Who This Course is For

This course is designed for individuals and organizations that need DOT Breath Alcohol Technician training on Lifeloc Phoenix 6.0 or EV30 devices, including:

- ✓ New collectors needing DOT drug test training & mock tests
- ✓ Existing BATs completing five-year refresher training
- ✓ Clinics adding DOT breath alcohol testing services

- ✓ Occupational health clinics training staff members
- ✓ Mobile drug and alcohol testing businesses
- ✓ Employers training in-house staff to perform DOT alcohol tests

How it Works

Complete your DOT Breath Alcohol Technician training in five clear steps.

1. Register Online

Enroll in the \$349 course and receive access to the online BAT and C-LOCT training materials.

2. Complete BAT & C-LOCT Training

Complete the self-paced BAT qualification modules and Lifeloc calibration training on your schedule.

3. Pass the Assessments

Complete the BAT assessment and C-LOCT test. You may retake the assessments as permitted until you pass.

4. Schedule Your 7 Mock Tests

Schedule your live video proficiency demonstration using the Lifeloc device you will operate.

5. Receive Your Certificates

Receive your BAT qualification documentation and C-LOCT certificate after completing seven consecutive error-free mock tests, device calibration, and document review.

What You'll Learn

Learn the essential procedures and compliance requirements for conducting DOT breath alcohol tests with Lifeloc EBT devices, including:

- ✓ Proper breath sampling and testing procedures
- ✓ DOT alcohol-testing regulations and technician responsibilities
- ✓ Correct completion of the Alcohol Testing Form (ATF)

- ✓ Screening and confirmation-test procedures
- ✓ Lifeloc EBT operation, calibration, and accuracy checks
- ✓ Documentation, privacy, and recordkeeping requirements

Curriculum

[↑
Index](#)

The BAT qualification portion contains seven video modules totaling approximately 52 minutes, with knowledge checks and an assessment. The C-LOCT portion adds Lifeloc device and calibration training followed by a 22-question test.

The live proficiency demonstration includes seven consecutive error-free mock tests using your Lifeloc device, followed by guided device calibration. Plan approximately two hours for the live session.

Introduction to BAT Certification – 9 minutes

Evidential Breath Testing (EBT) Methodology – 7 minutes

Equipment and Procedures – 3.5 minutes

Conducting Alcohol Screening Tests – 11 minutes

Conducting an Alcohol Confirmation Test – 8 minutes

Obstacles to Completing a Test – 5 minutes

Documentation and Record Keeping – 3 minutes

BAT Assessment Quiz

The quiz can be taken as many times as needed to pass with an 80% or higher.

C-LOCT Training

7 Mock Tests & Device Calibration – Approximately 2 Hours

This is done via live video conference. Students can schedule a time through our online scheduling platform once they have completed the C-LOCT training test.

Register Now – \$349

Built by DOT Compliance Training Experts

TeamCME has trained medical professionals nationwide in DOT compliance, including medical examiner, BAT, and breath alcohol technician education. This course combines DOT alcohol-testing procedures with practical Lifeloc device proficiency and calibration training.

TeamCME founder **Dr. Michael Megehee** has been training medical professionals to perform DOT compliance services since 1996. In fact, he was selected by the Federal Motor Carrier Safety Administration (FMCSA), an agency of the DOT, as a subject matter experts who helped design training curriculum.

Dr. Jeff Carlson, TeamCME's **Chief Medical Officer**, co-developed this course and leads the development of TeamCME's training programs. He has published on DOT medical compliance and has trained medical professionals nationwide through live seminars.
