DOT Urine Specimen Collector Training Online

Complete your DOT urine specimen collector qualification training and 5 required mock collections in one \$299 course. Supplies are included if needed.
No separate mock collection package required.

Register Now – \$299

Includes training, **5 mock collections**, and supplies if needed.

Current with 2026 DOT guidance

Reviewed and updated for DOT's June 2026 Urine Specimen Collection Procedures Guidelines and the revised 2026 Federal CCF.

Trusted by 28,000 medical professionals

5 Mock collections included

Supplies included if needed

Certificate after successful completion

What's Included in the \$299 Price?

Qualification Training

2 training videos (89 mins total) provide an in-depth discussion of everything a specimen collector should know

5 Required Mock Collections Included

Complete your DOT proficiency demonstration by performing 5 mock collections via video conference

Collection Kits for Mock Collections

If needed, we will mail you the supplies needed for your mock collections

Certificate of Completion

Available upon review of your completed CCFs from the mock collections

Avoid Surprise Add-On Fees

Some DOT collector courses advertise a low upfront price, but required mock collections, supplies, or proficiency demonstration fees may cost extra. TeamCME includes the qualification training, 5 mock collections, and supplies if needed in one transparent price.

Who This Course is For

This course is designed for individuals and organizations that need DOT urine specimen collector training, including:

- ✓ New collectors needing DOT drug test training & mock collections
- ✓ Existing collectors needing 5-year refresher training
- ✓ Clinics adding DOT drug testing services

- ✓ Occupational health clinics training staff members
- ✓ Mobile drug testing businesses
- ✓ Employers who want in-house staff trained to perform collections

How it Works

Complete your DOT urine specimen collector training in 5 simple steps.

1. Register Online

Enroll in the course and get access to the online training materials.

2. Complete the Training Videos

Watch the self-paced qualification training videos on your schedule.

3. Pass the Quiz

Complete the 32-question quiz. You may retake it as needed to pass with 80% or higher.

4. Schedule Your Mock Collections

After passing the quiz, schedule your live video proficiency demonstration.

Built by DOT Compliance Training Experts

TeamCME has trained medical professionals nationwide in DOT compliance, including NRCME medical examiner training and drug and alcohol testing education. Our training programs are developed with a practical understanding of DOT procedures, documentation, and compliance expectations.

TeamCME founder **Dr. Michael Megehee** has been training medical professionals to perform DOT compliance services since 1996. In fact, he was selected by the Federal Motor Carrier Safety Administration (FMCSA), an agency of the DOT, as a subject matter experts who helped design training curriculum.

Dr. Jeff Carlson, TeamCME's **Chief Medical Officer**, co-developed this course and leads the development of TeamCME's training programs. He has published on DOT medical compliance and has trained medical professionals nationwide through live seminars.
